K: (Google Translation) The GAP kids have been enjoying dodgeball and playing large group games in the gym. They really enjoy playing with or against the teachers. Getting a teacher out is met with wild cheering! We are playing with extremely soft dodgeballs and all ages have found fun in it. They have voted for it almost every day it is offered.

K: Recent studies at Yale University in 2015 have shown kids benefit greatly from freedom in creation of arts and crafts. With that in mind we will be nurturing that same environment with our activities. Kids will be allowed to come up with some of their own creations individually or with a small group like "Construction Creations" and "Buddy Tracing". The things that they come up with are just as interesting to them as the other groups participating. We will also do an activity called "Simon Says Draw" and a food creation called "Frozen Yogurt Bites" YUUUUUMMMMM! I am licking my

paws in anticipation...

K: Please pay attention to Summer sign up, School year re-enrollment, and our upcoming full day on March 24th. Any questions can be directed to my owner Koby Reginald Leisinger III. Also, we will be going outside if weather permits and unless your kids have fur like me pack accordingly with an array of garments and possibly a suitcase to pack them all in.

Enjoy the rest of the month -

Koby, site supervisor
